

Colloque ANRT GEOCYCLE FRANCE

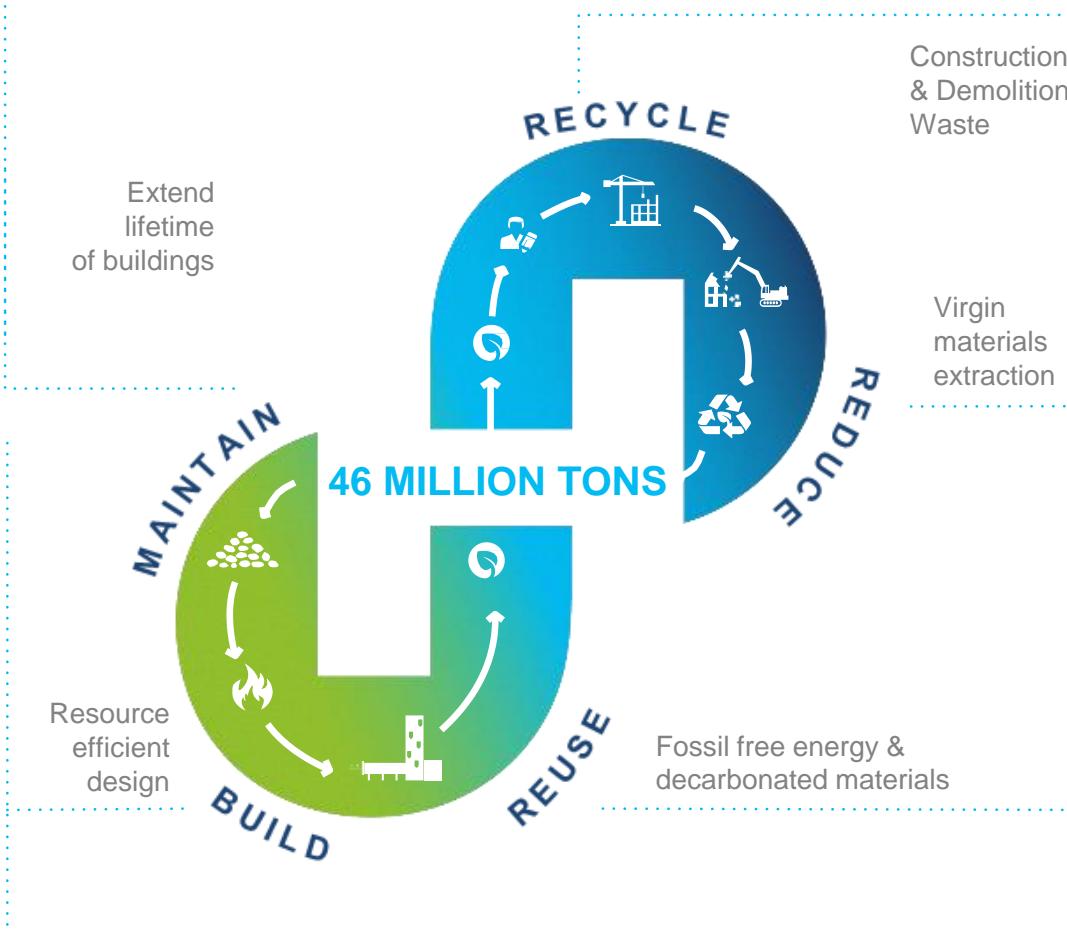

LEADER IN CIRCULAR ECONOMY

Our fully integrated Business Model recycling over 46 Million Tons

	Repair mortars Addressing refurbishment markets
	Firestone NORODY COVERS YOU BETTER™ Cool roofs, green roofs extending lifetime of roofing membranes and systems
	3D Printing Building more with less
	BIM Virtual co-construction of building and infrastructure projects
	QRIS Global material platform transforming road construction towards resources efficiency & sustainability

	High quality aggregate from 100% recycled content
	RMX concrete enabling circular and carbon-neutral construction
	The world's 1st circular cement with 20% Construction Demolition Waste inside
	Roofing membranes and ISO waste used as alternative fuels
	Waste management solutions

HOLCIM IS MAKING A DIFFERENCE

World leader in materials recycling

2020

46 Mt

of waste & by-
products
recycled in
2020

30 Mt	Clinker Substitutes	<ul style="list-style-type: none">• Recycled gypsum• Reclaimed waste, waste from steel, power and minerals production	
6 Mt	Construction & Demolition Waste	<ul style="list-style-type: none">• Base layer and Tunnel excavation• Concrete• Bricks• Asphalt• Glass, steel	
5 Mt	Alternative Raw Materials	<ul style="list-style-type: none">• Waste from minerals processing• Wood ashes• Washing sludges• Site remediation	
5 Mt	Alternative Fuels	<ul style="list-style-type: none">• Industrial wastes• Municipal solid waste• Agricultural waste	

OUR GOAL IS TO RECYCLE 100 MILLION TONS BY 2030

Solid action plan in execution to increase circularity

2020
46 MT

WASTE RECYCLED

2030
100 MT

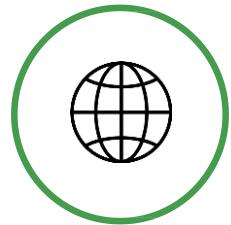

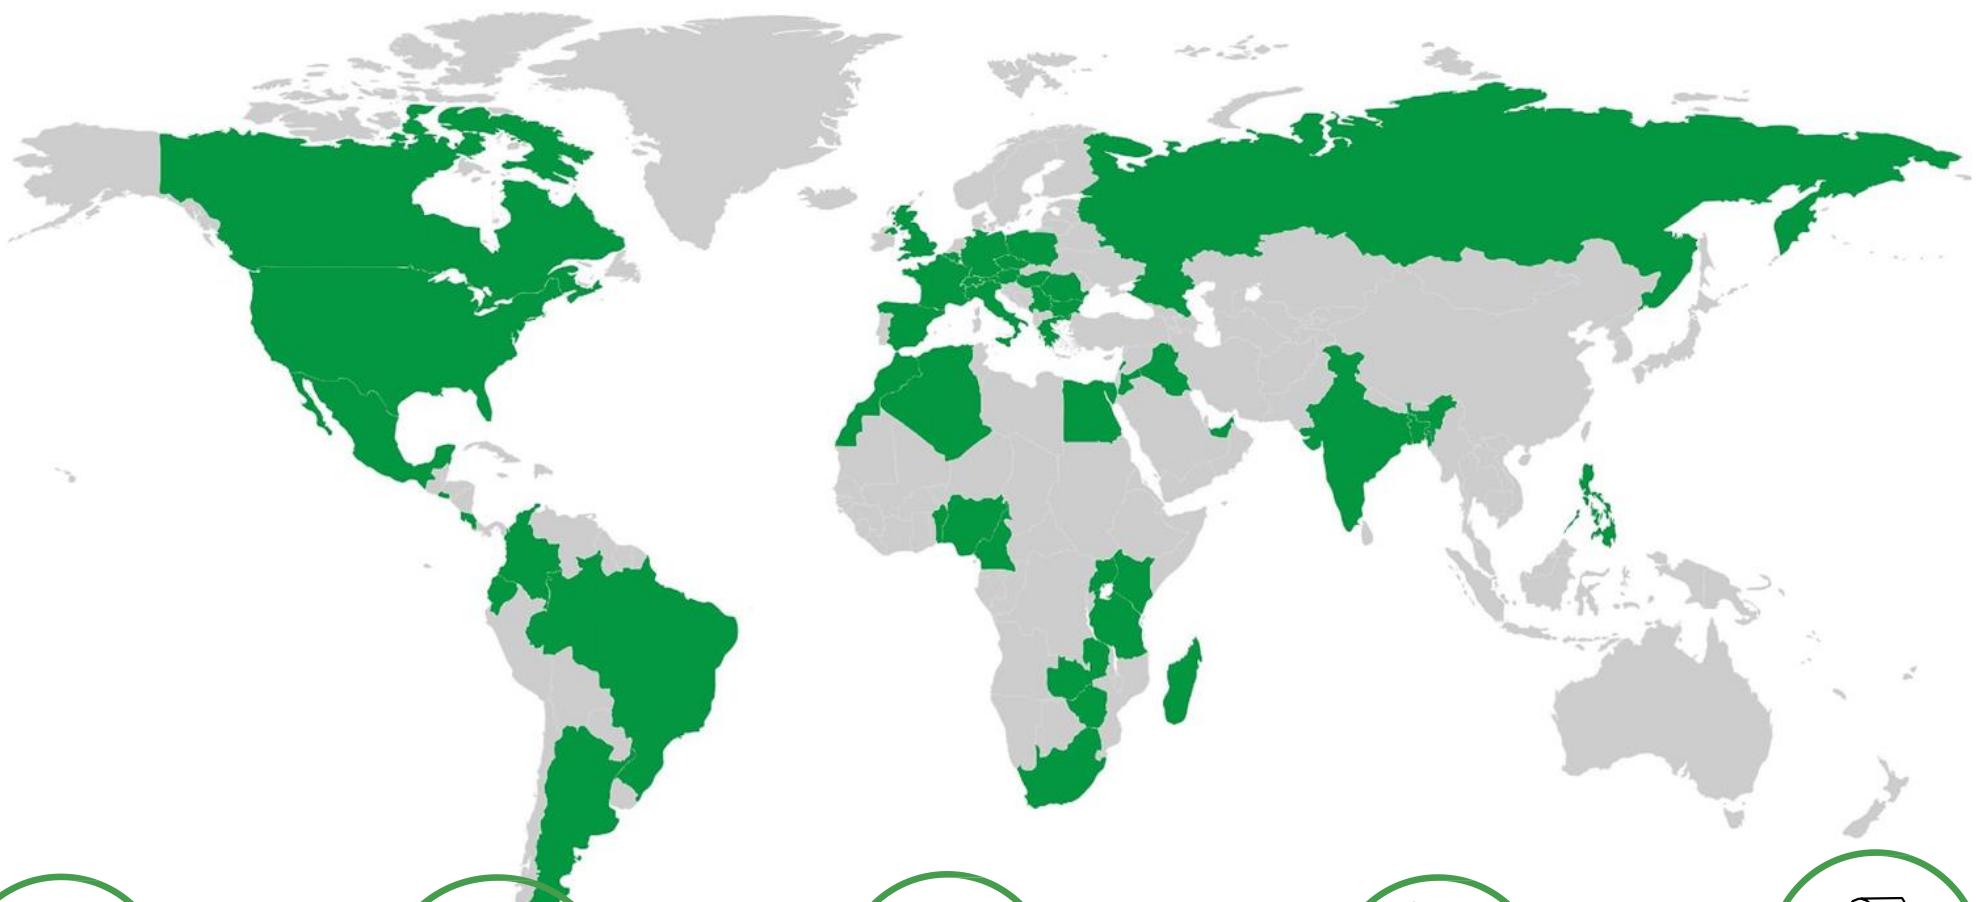

↗ Increase recycled content in our CEMENT TO 30% from 22% today

leaf icon Substitute 37% OF THE FUEL we use by generating energy from non-recyclable waste

recycling icon Recycle 10 mt of of Construction and Demolition Waste by 2025

x2 Enhance the circularity of our product portfolio, doubling our recycling ratio

Geocycle, la force d'un réseau international

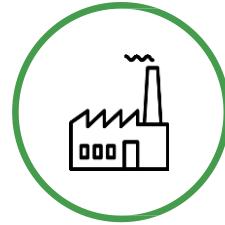

Présent dans plus de

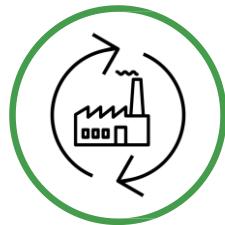

50 pays

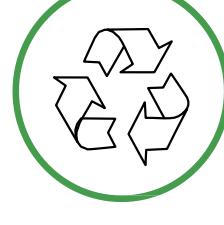

10 000 clients

80 installations
de pré-traitement

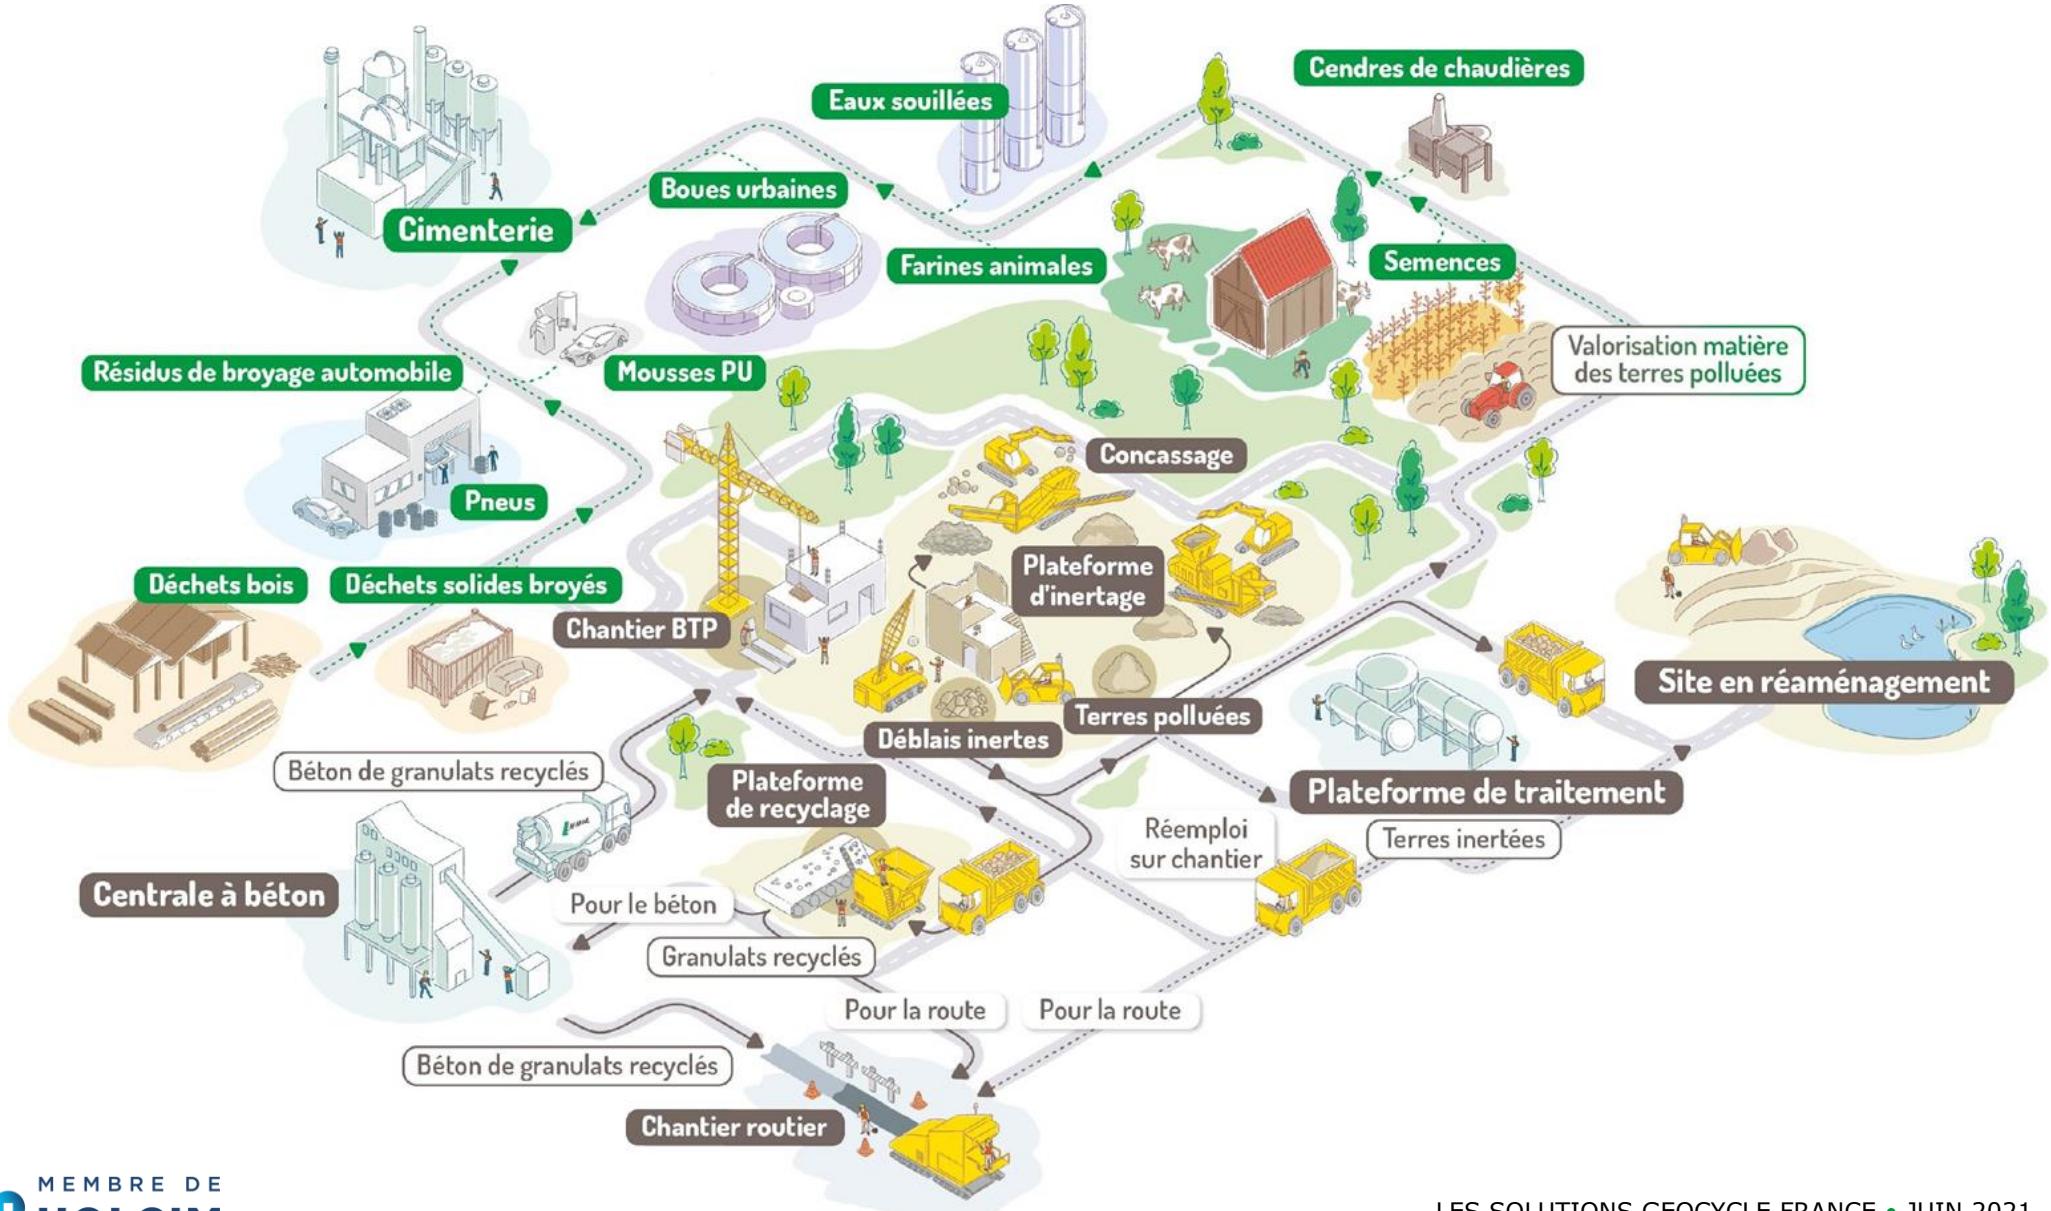

+ de 180 usines permettant
du co-processing

+ de 10 MT de
déchets traités

Nos solutions de gestion de déchets

au service de l'économie circulaire

Une offre globale de traitement et de valorisation

Pour les déchets industriels et du BTP, inertes et pollués

UNE OFFRE ADAPTÉE À TOUS LES PROJETS

Co-processing

valorisation matière
et énergétique de
vos déchets non inertes
en cimenterie

Inertage et traitement

de terres polluées

Gestion des déblais inertes

(filière K3, K3+, TN+)
en réaménagement
de carrière ou ISDI

Recyclage et prestations de concassage

sur chantiers
et plateformes

Geocycle France

Notre ambition à l'horizon 2025

Geocycle France a été créée le 1er janvier 2020 afin de développer l'offre **économie circulaire et traitement des déchets** du Groupe, pour lui permettre de produire et fournir des matériaux de construction **décarbonés et plus vertueux**.

2020

0,6 MT

déchets valorisés
en cimenterie

7,6 MT

déchets inertes
du BTP gérés sur
nos sites

51 %

TSR

2025

1 MT

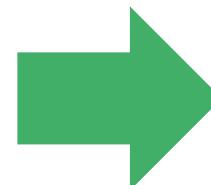

déchets valorisés
en cimenterie

8,4 MT

déchets inertes
du BTP gérés sur
nos sites
